

# Winter League

975 Ordze Road  
Sherwood Park, AB T8A 4L7

**Dates: January 6–April 15, 2025**

The Winter Indoor Golf League at The Golf Den will consist of twelve 18-hole rounds of golf. The players who complete 12 rounds will qualify for league prizes. The 12 rounds will occur over a duration of 12 weeks, starting **January 6, 2025**.

Each participant will have an entire week (Monday – Sunday) to play their weekly round and get their score card printed off and submitted. These rounds can be played in groups or solo. Booking your tee time is required. Reoccurring tee times can be accommodated if a punchpass is purchased. Booking at least a week in advance is recommended.

If you're going on vacation you can play extra rounds prior to or after. Rounds played after do not qualify for the weekly prizes.

## LEAGUE FEES

- The league fee is \$50.00 per player, due upon registration. 100% of league fees go towards prizes.
- Tee times will be charged at a discounted league rate.

## PRIZES

### Awarded as follows:

- Each week there will be a "Birdie Hole" selected by the league administrator. Anyone shooting a "Gross" birdie on the selected hole will share in that week's "Birdie Hole" prize.
- There will also be an end of season random draw prize to ensure everyone has a chance to win a prize.
- Prize amounts are determined once all league fees are paid.

Sherwood Park, AB T8A 4L7

## LEAGUE RULES

- The simulator must be set up by a Golf Den associate.
- All shots that do not register must be replayed (no penalty).
- Putts will be set to provide a “gimmie” within 6 feet (6.1 feet is outside of “gimmie” range).
- OB must select “Rehit”.
- No Mulligan’s (unless authorized by a Golf Den employee in lieu of a computer or ball issue).
- Must play Golf Den supplied golf balls.
- Maximum single hole score – triple bogey

## PLAYER BEHAVIOUR

All participants are expected to act in a respectful and responsible manner towards their playing partners, facility staff, and any other customers in the facility. Players who are found not to be obeying the house rules will be given one verbal warning, and if the problem persists will be asked to leave the premises and possibly forfeiting their right to continue on as part of the league. Reinstatement into league play will be at the discretion of the league administrator and facility manager.

## SIMULATOR IRREGULARITIES

- If the simulator stops registering a shot please notify the facility staff immediately.
- If for any reason the simulator stops functioning and the game cannot be continued or moved to another room, the round can be replayed at an arranged time at no additional charge.

## HANDICAP CALCULATION

Handicapping will start after the first 4 qualifying rounds, where players will be placed in a division based on their handicap. Players with a handicap that changes dramatically, will have it readjusted accordingly. This is to prevent and promote fair play. Handicaps will be calculated as follows: Weeks 1-4 (regular season)

Calculation  $[(**\text{Avg. Score}) - 72] \times 0.75 = 100\% \text{ of HCP (rounded up)}$

## SCORING SYSTEM

The Stableford scoring system will be used with the following points being given for each NET score per hole:

- Albatross = 7 points
- Eagle = 6 points
- Birdie = 5 points
- Par = 4 points
- Bogey = 3 points
- Double Bogey = 2 points
- Triple Bogey = 1 point

The league standings will be based on each player's TOTAL cumulative points. The player with the highest Stableford points after week 12 will be considered the regular season winner. The playoffs consist of 2 rounds with a winner taking the prize in each round. The playoffs will end during The Masters, where players will be invited to an end of season watch party and prize give away, as well as announcing the league winners.

## DATES

The weekly course listing will be posted at The Golf Den. This list will identify each week's course, condition settings and difficulty levels. Players will each play the assigned course, under the exact same playing conditions as all other league members (i.e. wind, dampness, cloud cover etc.).
